Respectfully submitted,

GEO. C. FARWELL,
A. B. EARLS,
E. M. POND,

Firewards of Milford.

We have examined the foregoing account and find it correctly cast and properly vouched.

J. E. BRUCE,
F. W. SAWYER,

Auditors.

Milford, N. H., March 1, 1888.

Report of Firewards.

The firewards submit the following report of the condition of the fire department of Milford, for the year ending Feb. 29, 1888. The companies are as follows :

SOUHEGAN ENGINE COMPANY, 40 men.

NEPTUNE ENGINE COMPANY, 40 men.

HOSE COMPANY, 8 men.

APPARATUS.

Souhegan Engine, No. 2, in good order and fully equipped.

Neptune Engine, No. 3 in good order and fully equipped.

Hose Carriage, No. 1, in good order and fully equipped.

Old No. 1 Engine and one chemical Engine are unfit for use.

We would also recommend the purchase of five hundred feet of hose.

GEO. C. FARWELL,

A. B. EARLS,

E. M. POND,

Firewards of the Town of Milford.

Report of the Board of Health.

The Board of Health, in presenting its second Annual Report, must of necessity present a series of facts and observations similar to those embodied in its first paper. Believing, however, that the subjects herein contained are of vital interest, we consider no apology necessary for again presenting them to the notice of the people of Milford.

The same method employed for abatement of nuisances during the first year's work, has been continued during the second, and the same readiness to comply with the published regulations was, in the main, observed.

A list of the complaints entered, the character of the nuisance complained of, as well as the result attending the efforts for abatement, has been kept throughout the year. This list shows that the number of nuisances which have occurred, though large, was smaller than during the preceding year.

This result evidences greater care, and a better appreciation of the unwholesome results which follow neglect of proper sanitary precautions, and is both creditable to our citizens and an encouragement to the Board.

Considerable work has been done in the way of furnishing instruction as to the best means of disposing of waste and unclean substances; the proper construction and trapping of the privy vaults being a good example.

The Tannery Sewer, estimates for the construction of which, together with plan of the same, were presented last year, was constructed and is doing its work efficiently and satisfactorily.

Encouraging, however, as have been the results of its work so far, and while using every effort to make the sanitary condition of our town still better, the members of the Board are frequently at a loss to solve satisfactorily some of the problems presented to them. It is easy to request A, B and C to remove this or that nuisance, but when, in response to such a request, the question is asked, "What shall I *do* with this offensive matter?" the difficulty is not so easily solved. This brings us then to the matter which was urged upon the attention of our citizens one year ago. It may be remembered that in our report we asked that the matter of the construction of suitable sewers be seriously considered. It is in nearly all cases difficult, and in many cases absolutely impossible, to thoroughly correct a nuisance, unless the only proper and efficient means for its disposal—a sewer—be in the vicinity.

Our natural means for drainage, situated as we are in a river basin and by bodies of stagnant water, are practically valueless, and the soil during each successive year is becoming more completely filled with the outpourings of water closets, sink-drains, and the products of decomposition and decay. Many of our wells are no longer deposits of pure, healthful water, and what is already bad will become steadily worse the longer the construction of sewers is neglected.

As has been before stated, the healthfulness of our town depends largely upon (1) an abundant supply of pure water, and (2) its prompt removal after it has served its purpose and use, together with the waste and filth of which it will have become the carrier and solvent.

The voters of Milford will be asked at our March meeting whether a supply of pure water shall be furnished for drinking and other purposes, a matter of great and increasing importance on account of the doubtful condition of many of our wells, already referred to. We feel that it is equally important that a means be furnished for its subsequent removal. Much could be added in the form of argument and

statistics to prove the need for early and decided action upon this question of sewers. But it is hoped that enough has been said already to elicit a favorable decision upon any measure calculated to further this important work.

Respectfully submitted,

W. H. W. HINDS,

WM. M. KNOWLTON,

H. S. HUTCHINSON,

Board of Health.

*Stillborn.

STATE OF NEW HAMPSHIRE.

{ L.S. } To the Inhabitants of the Town of Milford,
qualified to vote in Town affairs :

YOU ARE HEREBY NOTIFIED to meet at the Town House in said Town, on the thirteenth day of March, next, at nine of the clock in the forenoon, to act on the following subjects :

- 1st. To choose a Moderator to preside in said meeting.
- 2d. To choose all necessary Town Officers for the year ensuing.
- 3d. To hear a Statement of the Town Accounts and act thereon.
- 4th. To raise such sums of money as may be necessary for the support of Schools, maintenance of the Poor, repairing Highways and Bridges, repairing Buildings, and for other necessary charges arising within the Town.
- 5th. To see what sum of money the Town will raise and appropriate toward paying the Town debt.
- 6th. To see if the Town will vote to make a preliminary survey for a system of sewers, and raise and appropriate money for the same.
- 7th. To see what sum of money the Town will raise and appropriate for the Fire Department.
- 8th. To see what sum of money the Town will raise and appropriate for building and repairing sidewalks.
- 9th. To see what sum of money the Town will raise and appropriate for the free Library.
- 10th. To see what sum of money the Town will raise and appropriate for the observance Memorial Day.
- 11th. To see if the Town will vote to exempt from taxation for a period not exceeding ten years, any increase of capital invested by David Heald, either individually or in association with any partners he now has, or may have, in buildings, machinery, or stock, in manufacturing furniture in the Town of Milford.
- 12th. To act upon the subject of paying the Sexton for the ensuing year.
- 13th. To see what sum of money the Town will raise and appropriate for street lamps.

- 14th. To see if the Town will vote to employ a night watchman and raise and appropriate money for the same.
- 15th. To see if the Town will vote to raise and appropriate (\$400,) four hundred dollars for moving and repairing the School House in the Howard District.
- 16th. To see what action the Town will take in relation to making a contract with the Milford Water Works Co., or other parties, for Hydrants and water to be used for the extinguishment of fires and other purposes, and raise and appropriate money for the same.
- 17th. To see what action the Town will take in relation to constructing and maintaining a system of water works, for the extinguishment of fires, and for other purposes, and raise and appropriate money for the same.
- 18th. To see what action the Town will take in regard to the Liquor Agency.
- 19th. To see if the Town will authorize the Selectmen to hire money of residents of the Town, at a rate of interest not exceeding five per cent. per annum, exempting all moneys thus loaned from taxation.
- 20th. To see what action the Town will take in relation to constructing a Carriage Bridge across the Souhegan River, at a point where the foot Bridge now is.
- 21st. To see what action the Town will take in relation to purchasing a suitable lot for a grave yard.
- 22d. To hear the reports of Auditors, Committees, and Agents, heretofore chosen, and act thereon.

Given under our hands and seal this twenty-fifth day of February, in the year, A. D., eighteen hundred and eighty-eight.

LEONARD B. DOW,
EVERETT STICKNEY,
MARCENE S. HALL,

Selectmen of Milford.

J. E. BRUCE,
F. W. SAWYER,

Milford, N. H., Feb. 27, 1889.

Auditors.

REPORT OF FIREWARDS.

The Board of firewards submit the following report of the condition of the Fire Department of the Town of Milford, N. H., for the year ending February 28, 1889:

SOUHEGAN ENGINE COMPANY, No. 2, 40 men.

NEPTUNE ENGINE COMPANY, No. 3, 40 men.

HOSE COMPANY, No. 1, 8 men.

APPARATUS.

Souhegan Engine, No. 2, in good condition and fully equipped.

Neptune Engine, No. 3, in good condition and fully equipped.

Both of these engines we have had thoroughly overhauled, and they were never in better working order. Neptune, No. 3, we have had revarnished.

Hose Carriage, No. 1, in good order and fully equipped.

Old Engine, No. 1, and Chemical Engine, are worthless and we recommend their sale.

HOSE, ETC., ON HAND.—1700 feet of 2-inch hose, in good condition; 500 feet $2\frac{1}{2}$ -inch hose, new; 100 feet 2-inch linen hose, in fair condition; 21 rubber coats, in fair condition; 5 ladders, in good condition; 2 hooks with chains and ropes complete; 4 signal lanterns.

Engine House (needing painting and some other repairs), with steam apparatus for drying hose, new. Also, Fire Alarm in good order.

We have deemed it necessary to place a steam-heating apparatus in the engine house, for drying hose. We fully tested it after Howard, Frech & Heald's fire, and it proved a success, drying the hose in one day that formerly required five days.

We have sold worthless leather hose to the amount of seventy-three dollars. We recommend the purchase of 500 feet of hose, and the painting and repairing of the engine houses. Also, the purchase of two new hose carriages upon the completion of the water works.

All of which is respectfully submitted.

EDWARD FINERTY,

B. F. FOSTER,

Firewards.

Report of the Board of Health.

The Board in making the third annual report of its work, feel that what has been accomplished during the year just ended is the most important to the health interests of the town of any which has yet come under its notice and control.

It will be remembered that at the last annual town meeting a vote was passed authorizing a survey for a system of sewers, and the sum of five hundred dollars was appropriated to defray the expense of the same. Accordingly satisfactory arrangements were made with Mr. George H. Allen, C. E., of Manchester, N. H., for the survey and construction of plans and estimates for building. This work was promptly and, we believe, efficiently performed.

The subjoined explanations and statements selected from his report of the proposed system, will give a general idea of this work.

"To W. H. W. Hinds, H. S. Hutchinson and Wm. M. Knowlton, comprising the Board of Health for the Town of Milford :

"GENTLEMEN — In June, 1888, I made a contract with you to make a survey of your village, and design a system of sewerage for the same. The field work was commenced July 9th, and completed August 1st, 1888. During this time fifty-seven streets and driveways, all the cemeteries, the new school lot, and all the old school

lots, and both sides of the Souhegan River were accurately surveyed; also levels were taken for the profiles of fourteen streets, and two lines through the fields, for the proposed outlets to the river. For making these surveys a party of five men were employed, of which three were citizens of Milford.

“Your problem of drainage is a difficult one, owing to the peculiar situation of your village, lying, as it were, in pockets, together with the fact that there are three dams across the river, rendering it necessary to conduct all the sewage down below the last dam.

“These facts have compelled me to adopt round-about courses and very flat grades, with deep cuttings. My study has been to give you the cheapest possible method of disposing of your sewage, and at the same time do the work effectually; and, so far as I am able to judge, this is what I have given you.

“I have divided the system into four main sections, with three separate outlets into the river, and each of these main sections is sub-divided into two smaller sections, independent of all others, except the mains.

FIRST SECTION.

“The first and principal section commences on the north side of the river, about fifty feet below the Wilcox dam, passing through the field to the Souhegan Canal, ninety-five feet from the gate; thence through the canal under the mudsill, and across the river to Maple Street; thence through Maple Street to Union Square, and then through Union Square, east of the Oval, to Elm Street. This main will drain Elm Street, Union Street, and all east of it, Union Square, the section between Nashua and Maple Streets, and a part of South Street, as shown by the plan.

SECOND SECTION.

“ This section comprises all the remaining portion south of the river, and discharges into the river below the Wilcox dam, through a main in the rear of the Wilcox mill, across Nashua Street and through Clinton Street.

THIRD SECTION.

“ This section is really a branch of the first, using the same outlet from the foot of Maple Street, across the river, starting from the foot of Maple Street and following the south bank of the river, as shown on the plan, and across the river to a point opposite the Amherst Street culvert. This main drains Amherst and Mt. Vernon Streets, and all north of them, together with a part of Souhegan and Pleasant Streets.

FOURTH SECTION.

“ The fourth section has its outlet through the Souhegan Corporation lands in front of the easterly block. This, like the rest, is sub-divided, the west division taking Souhegan Street from the summit, and all the streets running into it ; the east division taking the remainder of Souhegan Street and Border Street.”

Following the outline of the separate systems, Mr. Allen gives an exhaustive analysis and explanation of the work, including a comparison of different systems of sewers—pipe laying, outlet masonry, back-filling of trenches, construction of man-holes and lamp-holes, construction of catch-basins, ventilation of sewers, sewer connections with houses, flushing of sewers, lines and grades, depth

of sewers, relation of sewers to brooks and water-courses, trench cribs, etc., etc.; together with diagrams for construction of the various appurtenances with estimates of cost.

This report, only a fragment of which is presented here, together with a set of excellent maps, furnishes to the town a collection of working plans, the importance and value of which cannot be overestimated.

In presenting to the town the results of the year's work, the Board desires to express its emphatic approval of the disposition which has been manifested by appropriation and otherwise to further and encourage the efforts which are being made to render our town and village a beautiful and desirable place in which to live.

The survey and construction of a system and plans by means of which the building of suitable drains for any and every part of our village can be accomplished is a step in the right direction; a good beginning, but it is *only* a beginning. Our experience during last spring and summer proved beyond a doubt that there is an alarming increase in the pollution of drinking water, and a growing danger from the lower and imperfectly drained portions of the soil.

We were, in our efforts for abatement of nuisances, again and again confronted by the fact that we were powerless to remove the danger of the poisoning of drinking water (except for a brief time), unless a means was speedily furnished for the removal of accumulating filth.

We have, fortunately, passed through another

season exempt from any epidemic of contagious or infectious diseases. Typhoid fever and diphtheria were both imported into our midst, but by suitable restrictions were prevented from spreading. If, however, the matter of sewer building is not met squarely and promptly, we cannot hope for equal success in the management of future cases.

The disposition on the part of our citizens to cheerfully and promptly comply with any directions for abatement of nuisances, has continued uninterruptedly. We ask, further, that you assist to make for yourselves healthful homes and surroundings by furnishing the means for the removal of disease-breeding substances from them.

A specific recommendation for a beginning in the work of construction will be made at our annual town meeting, and it is most earnestly desired by the Board that the matter will be favorably received, and an appropriation made in accordance with the needs as they will be presented.

Respectfully submitted,

W. H. W. HINDS,

H. S. HUTCHINSON,

WILLIAM M. KNOWLTON,

Board of Health.

STATE OF NEW HAMPSHIRE.

 L. S. } To the Inhabitants of the Town of Milford, qualified to vote in Town affairs :

YOU ARE HEREBY NOTIFIED to meet at the Town House in said Town, on the twelfth day of March next, at nine of the clock in the forenoon, to act on the following subjects :

- 1st. To choose a Moderator to preside in said Meeting.
- 2d. To choose all necessary Town Officers for the year ensuing.
- 3d. To take the sense of the qualified voters whether the alterations and amendments of the Constitution proposed by the Constitutional Convention shall be approved.
- 4th. To hear a statement of Town Accounts and act thereon.
- 5th. To see what sum of money the Town will raise and appropriate to pay the Town Debt.
- 6th. To raise such sums of money as may be necessary for the support of Schools, maintenance of the Poor, repairing Highways and Bridges, repairing buildings, insuring Town House, use of Hydrants, and for other necessary charges arising within the Town.
- 7th. To see what sum of money the Town will raise and appropriate for the Fire Department.
- 8th. To see what sum of money the Town will raise and appropriate for building and repairing Sidewalks.
- 9th. To see what sum of money the Town will raise and appropriate for the Free Library.
- 10th. To see what sum of money the Town will raise and appropriate for the observance of Memorial Day.
- 11th. To act on the subject of paying the Sexton for the ensuing year.

- 12th. To see what sum of money the Town will raise and appropriate for Street Lights.
- 13th. To see if the Town will vote to erect three Street Lamps on Souhegan Street, and put in a Reservoir near the corner of Souhegan and Border Streets.
- 14th. To see if the Town will vote to employ a night watchman, and raise and appropriate money for the same.
- 15th. To see if the Town will vote to construct a system of Sewers, and raise and appropriate money for the same.
- 16th. To see if the Town will vote to adopt the provisions of "Chapter 78, General Laws," relating to Sewers.
- 17th. To see if the Town will vote to build a carriage bridge across the Souhegan River where the foot bridge now is, and raise and appropriate money for the same.
- 18th. To see what action the Town will take in relation to building a Memorial Hall and Library, and raise and appropriate money for the same.
- 19th. To see what action the Town will take in relation to purchasing a suitable lot for a graveyard, and raise and appropriate money for the same.
- 20th. To see if the Town will vote to instruct the Selectmen to apply to the Legislature for an act exempting the Milford Water Works Company from taxation.
- 21st. To see what action the Town will take in relation to the Liquor Agency.
- 22d. To see what action the Town will take in regard to the preparation of a History of the Town.
- 23d. To hear the reports of Auditors, Committees and Agents, heretofore chosen, and act thereon.

Given under our hands and seal this twenty-third day of February, in the year eighteen hundred and eighty-nine.

EVERETT STICKNEY,
MARSENE S. HALL,
NELSON H. BROWN,

Selectmen of the Town of Milford.
